An interesting game of base ball was played Sunday afternoon in the western part of the city between the Lightweights and the Transfer nine. At the end of the seventh inning the score stood 15 to 0 in favor of the lightweights.

The board of trade holds its regular weekly meeting this evening. As there has been no quorum for the past three weeks, it is hoped that at least fifteen members will turn out, with considerable business has accumulated and it is time that it was disposed of.

Contractor E. A. Wicham placed several cypress blocks on exhibition in front of the Manhattan yesterday. They are made of an old cypress picket that has been in use at Baton Rouge, La., for sixty-three years. It was still in a good state of preservation.

The pools on the races were opened last evening at the "Blue Front," and sold at a very lively rate for the first day's races. King Humbert, Dick C. and Hendryx were favorites, and even against the field in their respective classes. The betting on the track to-day promises to be very lively.

John Burke, deputy city clerk, now takes great pride in introducing to friends a diminutive gentleman by the name of John Burke, Jr., who arrived at his home Sunday morning for a protracted stay. The youngster tips the beam at fifteen pounds, and has already expressed his satisfaction over the nomination of Harrison and Morton.

The volume of supplements to Johnson's celebrated encyclopedia is being delivered to subscribers in this city. With this volume the cyclopedia is brought down to date, and the value attached to the work is greatly enhanced. With this late addition to this valuable work, Johnson's cyclopedia is made a complete reference work in itself.

There was a fair audience at the opera house last evening to witness the opening exhibition of the Vincent Theater company. The play was well rendered, and it goes without saying that at the summer prices adopted—half the usual rates—the house will be packed during the remainder of the week. The company is a good one, and deserves liberal patronage.

Mr. George Marshall desires through The Bee to express his thankful appreciation for the sympathy shown by so many friends in this community. The death of his wife was a terrible blow, and the sympathy shown him in so many delicate ways proved most helpful in enabling him to bear up under this heavy burden. For all these acts of kindness he desires to express heartfelt thanks.

Mrs. John T. Hurley died at her home, 1517 West Broadway, Sunday evening of pulmonary fever. The deceased was thirty-seven years of age, and leaves a husband and four children to mourn her loss. Her illness was of short duration, and the sad blow came suddenly to her relatives and friends. She was a most estimable woman, and the sympathy of many friends is extended to the bereaved family. The funeral will occur this morning from St. Francis Xavier's church, and will take place at the Catholic cemetery.

The sad news reached here yesterday of the death of Henry Lundt, a young man who for years was a resident of this city, and who left here about three years ago for Colorado, where his death occurred, typhoid fever being the cause. The survivors are Mrs. Lundt Bros., the successors of W. S. Homes, on Main street. One of them, Charles, left last evening for Colorado. On his arrival there he will notify the friends as to whether the remains are to be brought back here for burial. The deceased has many friends in Council Bluffs, who will hear the news of his unexpected death with much sorrow.

By an announcement already made it appears that J. W. Squire is again in sole control and ownership of the loan, abstract and real estate business with which his name has become so familiarly associated. Mr. Squire, although a comparatively young man, has been for many years in the business, having been formerly associated with N. P. Dodge, and then, nearly twenty years ago, starting for himself the business in which he is now so firmly established. He has been acquainted throughout the west, is closely connected with the financial circles of the east, and with all the prominent real estate men of this city, and with all the details of this line of business, and he can be relied upon to be in the future, as in the past, backed by all the facilities, thoroughly conversant with the requirements of the business, he is excellently situated for meeting all the requirements in this line.

J. G. Tipton has bargains in real estate. Notice is hereby given that the partnership heretofore existing under the firm name of J. W. & E. L. Squire, was on June 18th, 1888, dissolved by mutual consent. J. W. Squire will assume all liabilities of, and collect all indebtedness to said firm, and is alone authorized to sign the name of said firm in settling up its affairs.

E. L. SQUIRE, Council Bluffs, Ia., June 29, 1888. Having purchased the entire interest of E. L. Squire in all property, both real and personal, belonging to the late firm, I shall continue the business in all its branches, as heretofore, at my office, 101 Pearl street, Council Bluffs, Ia.

After His Own Children. Some months ago a farmer living some sixty miles east, by the name of Kincaid, had some difficulty with his wife and she left him and went to Omaha. Here she remained until she had acquired residence, when she instituted proceedings for divorce by publication, expecting to secure it by default. Some days ago she suddenly appeared at her old home and desired to see the children. This was granted her and they were prevailed upon to return to Omaha with their mother. The father gave his consent to this on the promise of his wife that she would return the children in a few days. A few days and more passed, but the children did not appear. The father grew uneasy and came to Omaha. Here he learned of the divorce proceedings then pending. Last Saturday the father quietly came home, and the wife and children were secured in time for a hearing of the case yesterday, but Judge Aylesworth will hear the arguments to-day at 10 o'clock a. m. Mr. Kincaid is a man of about forty-five years of age. According to his wife he has given his wife no cause for leaving him, and he expresses the determination to fight the case to the end.

TWO AGED SISTERS ROBBED.

A FATHER WANTS HIS CHILDREN.

The Wife Said to Have Spirited Them to Omaha—Like Manawa's Abundance of Water—The Races To-Day.

Robbing Old Women.

The report of a bold and brutal robbery is received from Woodbine, near which place the affair occurred. Two old ladies, both over sixty years of age, were the victims. They are sisters and have been living together in a rather secluded spot a short distance from Woodbine. It has been their habit to keep their money in their house, hiding it in a stocking which was kept some where about the house. Saturday night two ruffians went to the house and forced the two aged and infirm old ladies to part with their closely saved wealth, and in doing so had a struggle in which both the women were badly injured. One of them is not expected to live, she being badly cut. The other is injured, however, by a bruise received in the scuffle, and the nervous shock that by the use of any weapons. The ruffians got away with \$348. It is supposed that the robbery must have been committed by some one conversant with the peculiarities of their way of living, and familiar with the surroundings. The fellows were masked and the old ladies are unable to give any clear description of them. The affair has caused much excitement and the neighborhood is up in arms. If the fellows are caught while the present excitement is at its height, it will fare ill with them.

Opening Races To-Day.

The races will begin to-day, and visitors are already arriving in the city from various parts of this state and Nebraska. This city has obtained an enviable reputation all over the country for the excellence of its races, and the result may be seen at any of its racing meetings. In the large number of its fast horses to be found on the track, and the immense attendance of visitors from outside. The track is justly claimed to be the fastest in the west, and it is now in even better condition than usual, which fact indicates that the present meeting will be one of lowering previous records. The racing will begin promptly at 2 o'clock each afternoon, and the summer programs will take up fully a half day, and possibly more. To-day's program, aside from the chariot race, is as follows:

Judge Aylesworth's Interviews.

When the doctor of the "bombs" opened yesterday morning to release Sunday's cut-purses several familiar faces appeared. Judge Aylesworth ran his eye hastily over the crowd.

"Al there, Trotter! So you are here again. Just trot around here so I can get a good look at you. How you have changed! You are a hard worker, grief over the loss of your wife, or lack of soap and water?"

Trotter tried to explain. He came in after mail. "You mean female," interrupted the court.

"No, on my 'onor as a man, judge. I have not seen my wife. I know she is getting a divorce, and I am going to let her get it. I will leave the city right away, judge, if you want me to. The court wanted him to and he left.

Witnesses. Cooper and Lee were assessed \$7.50 each for painting their noses too red. "Tom Leman what is your business?" asked the judge of a sallow faced son of Ham. "I am a water, mah."

"Yes, I suppose so. You were 'waiting' when the police dropped on you. Where do you do the most of your waiting?" "In hotels, sah. I have worked in Chicago, Kansas City an' all 'round, sah."

"We have too many waters around here now, you see."

John Kelley had lots of friends, plenty of letters but no money. The court had friends enough and did not care to peruse the letters, so Kelley went out to tell his weary way to another city.

George Kaper was charged with assault and battery. Peter Peterson and John Swanson showed two badly battered faces and Kaper was assessed to heal the breach of the law.

Miss Phelps, also charged with assault, was discharged, as no one appeared against him.

Too Much Tobacco.

The motor line is at last running cars through from the lake to Broadway every hour, much to the gratification of the citizens of not only this city but also of Omaha, by whom it is well patronized. It is estimated that the motor cars carried not less than \$,600 between the dummy depot and lake Manawa last Sunday. The Bee desires to call the attention of the management of the road to one fact, that in the hurry and bustle attendant on getting the line opened, has possibly escaped its notice. Many of the passengers who run over the road are addicted to the use of tobacco, and even those who do not, seem to be possessed of an

irresistible desire to spit, and the result is that the floors of the cars Sunday evening were almost alight, and to the annoyance of the many passengers whose skirts were soiled by the filthy accumulation. A number of ladies were obliged to wash the entire length of the train looking for a place at least decently clean. It is probable that this is brought about more through thoughtlessness than on account of any malicious intent on the part of the spitters, still the result is the same to the unwilling spitters. A few signs conspicuously posted in the cars, and strictly enforced by the conductors would be greatly appreciated by the lady passengers, and it is hoped that Manager Reed will kindly investigate the matter, and it is a deplorable fact that the actions of those who claim to be gentlemen should make this loss necessary to the management, and it is hoped that there will be no occasion to refer to the matter again.

City Council Proceedings.

The city council met in regular session last evening. At roll call the following answered to their names: Mayor Rohrer, Aldermen Metcalf, Lacy, Weaver and Waterman. The monthly bills were read by title. The following were included: City engineer's department, \$22.50; Schuler & Doley, \$130; police department, \$92.25; salaries, ordered and alleys, \$1,056.50; Globe, \$354.65. Street and Mr. Shugart stated that as soon as the city corrects the defect in the paving of the track the old Shugart company will fill their lots. Referred.

Mr. Engle protested against the erection of a new bank near his property near the "Q" depot. Referred.

Petition of the Milwaukee Bridge and Iron company that as they have been boarding with an excellent supper, to their curbing work on contract they be paid the amount due. Placed on file.

Petition of property-owners on Sixth and Villard streets, to have their back paving used. On High School avenue that cedar block be used. On Seventh street, express block, to have their back paving used. On street, cedar or express blocks, Willow avenue from Sixth to Eighth street, hard burned brick on sand. Pierce street, cedar blocks, that the paving be postponed for one year. This request was placed on file. George Hughes proposes to have the city engineer check paving wherever ordered, as cheap as the best paving on cedar block. On Sixteenth avenue, from Pearl to Sixth street, express blocks on plank. First street, from Pearl to Sixth street, from Sixth street to Eighth street, with hard burned brick. All other paving to be done with cedar blocks or express blocks, except on First avenue, by McAdams and Amberg, Motion on Willow avenue carried.

Alderman Metcalf moved that Sixth and Seventh streets be paved with express blocks on plank and sand foundation. Carried.

Aldermen Knepper and Bellinger came in. Alderman Metcalf moved that all streets and alleys lying south of Broadway and west of Pearl, except such as are embraced in the present contract, be paved with express blocks on plank and sand. Carried. Ayes, Weaver, Lacy, Metcalf and Bellinger. Nays, Knepper and Waterman.

Mr. Shoemaker presented a petition of the majority of the property owners on Harrison street, that that street be paved with express block on plank and sand foundation. The street be cut out and he would get all the owners to sign a contract waiving all rights. It was so ordered. Afterward Gen. Avenue was closed to traffic.

Petition of W. J. Carter for a reversion of the police power of special policeman Nick O'Brien. Referred to the mayor and police committee.

The Fourth at Book's Garden.

A grand Fourth of July celebration will be held at the beautiful shaded park known as Book's garden, in the eastern part of the city.

Miss Josephine Rief will read the Declaration of Independence. The principal orator will be J. R. Dietrich, who will be followed by other speakers.

The grounds are provided with a number of swings and other apparatus for amusement of the young people.

A fine dancing platform, 30x50 feet, has been erected and will be in use both day and night by those who delight in that pleasurable pastime.

There will be a grand display of fireworks on the evening of July 4, and the best display made in the city.

Regular meals will be served at dinner and supper and first-class lunch at all hours.

Book's celebrated military band and orchestra will furnish the music, and the best of order throughout the entire grounds is guaranteed by the management.

The street cars will run all night. Come one and all and have a grand, good time.

High Water at the Lake.

Lake Manawa has followed the example set by the raging Missouri, and is on the rise. It is claimed that there is now as much water in the lake as there ever been—in fact, the boatmen claim that the water is too high for good boating and bathing. Since the rise there has been a difficulty in visiting all parts of the lake. Even the deposit at the mouth of Mosquito creek proves no obstruction, as there is sufficient water over the mud to allow the passage of steamers and sail-boats. It would be impossible to maintain the water at this high stage, even if it was desirable, as the water is gradually filtering up the lake, the eastern end being unmanageable at the ordinary stage of water, plus the incoming business interests at Manawa will not allow any thing detrimental to the lake to continue very long.

The Manawa fleet is constantly increasing. There are now three steamers, four sail-boats, a catamaran, a yacht and about seventy-five rowboats at the lake. Captain Chapman's new double-deck, twin-screw steamer is nearly finished, and will be launched very shortly, to take her place at the head of the fleet. It is claimed that the new vessel is a fine vessel on the lake. She will carry about two hundred passengers. The prophecy of some of the crew is that the vessel will be all dried in a year or two is disputed, several galleons of the wettest kind of contradiction still to be found there.
